

BRAC EPL Investments Limited, a distinguished subsidiary of BRAC Bank PLC and a leading capital market institution in Bangladesh, is seeking a competent and detail-oriented finance professional to join its **Research Department**. This role offers an excellent opportunity to work alongside experienced professionals and advance your career in a high-performance environment.

Position: Analyst/ Senior Analyst, Research

Key Responsibilities

- Monitor the stock market and analyze market trends.
- Prepare daily market commentary and reports.
- Prepare periodic reports on Macro Economy, sector and specific stock.
- Maintain and update company and economic databases to facilitate research.
- Conduct industry analysis, company-specific research, and macroeconomic analysis.
- Assist portfolio managers with investment recommendations and analytical support.
- Perform stock screening, selection, and price projection based on technical and fundamental analysis.
- Perform other tasks as assigned by the Head of Research.

Key Qualifications & Skills

- Bachelor's/Master's degree in finance, economics, or related fields from leading universities.
- 3–4 years of relevant experience, preferably in the capital market or investment research domain.
- Strong numerical, analytical, and technical analysis skills.
- Excellent communication skills to present research insights effectively.
- Keen interest in the equity market and investment research.

Benefit:

We offer competitive compensation, festival bonus, contributory provident fund, gratuity, medical and life insurance, and additional benefits in line with company policy.

How to apply:
